

## COMPANY OVERVIEW

i3Automation's expertise spans across a range of critical sectors, including government contracts for Waste Water Treatment Plants and partnerships with paper mill companies. We are adept at designing, programming, and commissioning comprehensive industrial automation systems, with a focus on PLCs, SCADAs, and instrumentation. In addition to our core services, i3Automation excels in the renewable energy sector, where we develop and write control narratives for solar plants.

### I3AUTOMATION LLC

15607 Lemon Fish DR Lakewood Ranch, Florida 34202-5847, United States

UEI: XU24WKEZLS67

CAGE Code: 9ZJM6

## CORE COMPETENCIES

- Control Panels
- PLC Programming
- Scada Programming
- Commissioning
- Instrumentation
- Network
- Motor Controls
- Software Development

## PAST PERFORMANCE

### City of Arcadia

We proudly support Arcadia with top-tier SCADA, PLC, instrumentation, and motor controls troubleshooting—ensuring peak performance all year long!

- **Start Date:** 09/21/22
- **Value:** \$35,000.00

### Waste Water treatment plant - Arcadia

We've transformed the effluent pump station by retrofitting the old control panel with a new VFD, PLC programming, and SCADA control.

- **Start Date:** 03/18/24
- **End Date:** 04/30/24
- **Value:** \$99,450.00

### WestRock

We proudly support WestRock's paper and mill operations with expert control panel services, process troubleshooting, and monitoring systems.

- **Start Date:** 08/16/21
- **Value:** \$150,000.00

## NAICS CODES

**Primary:** 541511 - Custom Computer Programming Services  
**Secondary:** 238210, 334513, 335313, 518210, 541330, 541512

## CERTIFICATIONS

- Ignition Certified
- VT Scada Certified
- Canary

## SERVICES

- SCADA support for Wastewater treatment plants
- Empowering WestRock with Top-Tier Support
- Revamping Effluent Pump Stations with Cutting-Edge Control Panels

## PRODUCTS

- Elite SCADA Support & Development
- Expert PLC Support & Development
- Superior Motor Control Support & Development

## DIFFERENTIATORS

i3Automation stands out through its comprehensive expertise in designing, developing, and commissioning advanced Control Panels, SCADA systems, and industrial automation solutions, including Rockwell, Siemens, and Schneider PLCs. We excel across diverse sectors, from wastewater treatment and paper mills to solar energy, showcasing our adaptability and sector-specific knowledge. Our certifications in leading software platforms ensure cutting-edge technology and reliability.
